

BARD & BLACKWOOD

A WOODWORKING COMPANY

The background of the entire page is a close-up, high-resolution image of a wood grain. It features a series of concentric, slightly irregular circular rings that radiate from a central point in the upper right quadrant, creating a sense of depth and texture. The colors range from a deep, dark blue-grey to a lighter, almost white, highlighting the natural patterns of the timber.

WORLD CLASS *products*
CRAFTED *from the* FINEST
TIMBERS

BARD & BLACKWOOD

MADE IN CHICHESTER

From loo seats to libraries.
From English Oak to Lignum Vitae.

Our skilled craftsmen have worked with us for many years transforming your dreams for your homes into reality.

Because of our understanding of the process nature takes, we can work with almost any wood, providing it is of course sustainable, advising you along the way on the best and most suitable match for your design.

If you have an idea for your next project but cannot find the solution, we would be happy to assist.

Our design team will draw your idea into a visual reality and suggest methods of manufacture.

Because everything is done in house, you will not have to wait for an answer from a factory outside of these shores, all of our experts are on the shop floor and our response is instant and constructive.

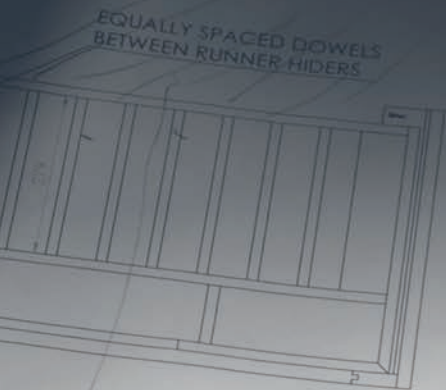

We also have a nascent marble masonry department for our burgeoning bespoke ranges.

We are what we have set out to become
'A manufacturing company based in England who make world class products'.
